SPP Regional Standard Update

SPP RE Trustee Meeting

October, 2009

Under Frequency Load Shedding (UFLS) Standard

SPP UFLS Standard Activities (2009)

(Beginning with the 1st Draft posting)

SPP UFLS Standard (PRC-006-SPP-01)

- **Current Status**
  - **Comments received on Draft 2**
  - **Standard Drafting Team will review the comments and decide the course of action**
  - **Consultant (PowerTech Labs) is being contacted for performing a detailed UFLS study using proposed standard requirements**

Key areas yet to be addressed based on latest set of comments

- **Applicability Section**
  - **Language still ambiguous**
  - **Applies to more entities than NERC standard**
- **Technical Requirements**
  - **Maximum load shedding allowed in first two steps**
  - **Overlapping in Step 1 and 2**

Next Steps

- **SDT will decide next course of action by November 2009**
  - **Option 1 : Prepare Draft 3 and post for Comments**
  - **Option 2 : Send the standard for voting after incorporating comments**
- **Target to adopt the standard by First quarter of 2010**
  - **Technical Study will start January 2010 and will be completed by first quarter of 2010 as well**
  - **NERC and some other regions are on the same timeframe for adopting their respective UFLS standard**
