Southwest Power Pool Regional Standard Ballot Registration

Title: Southwest Power Pool (SPP) Automatic Underfrequency Load Shedding

Number: PRC-006-SPP-01

Purpose: To develop, coordinate and document requirements for automatic underfrequency load shedding (UFLS) programs to arrest declining frequency and assist frequency recovery following underfrequency events.

Draft 7 of the Southwest Power Pool (SPP) Automatic Underfrequency Load Shedding regional standard (PRC-006-SPP-01), which was posted on SPP.org today (9/30/2011), is being submitted for vote. The purpose of the standard is to develop, coordinate and document requirements for automatic UFLS programs to arrest declining frequency and assist recovery of frequency following underfrequency events. View Implementation Plan, Comments, Technical Documents, and other related documents.

Any entity or individual that qualifies for at least one of the following voting segments and is registered with SPP as a UFLS Regional Standard ballot body participant may vote on the proposed standard:

1. Transmission
2. Generation
3. Marketer/Broker
4. Distribution/Load Serving Entity
5. End User and Public Interest

Membership in SPP is not a requirement for registration. However, each proposed standard has its own registered ballot body.

Registering for the Ballot Body

Interested parties may register for the SPP UFLS Regional Standard ballot body by completing and submitting an online ballot body registration form. Only one registration per entity or individual is allowed, and an entity or individual may register for only one segment.

The registration window for the SPP UFLS Regional Standard ballot body is 9/30/11-10/14/11 at 5:00 p.m. CST.
