Regional Delegation Agreement Negotiation

Update

January 17, 2010

The eight regional entities have been negotiating with NERC to renegotiate the regional delegation agreements. In addition, NERC and the regions are working together to create proposed changes to the NERC Rules of Procedure including Appendix 4C, the Compliance Monitoring and Enforcement Program (CMEP). Finally, NERC and the regions are developing a set of metrics for the delegated functions.

NERC and the regions plan to post documents related to these efforts on January 29 for stakeholder comments. A discussion on the delegation agreements is also scheduled for the MRC agenda for February 15, 2010.

NERC and the regions plan to file renegotiated delegation agreements with the Federal Energy Regulatory Commission in May 2010.
