1 - The processing of short-term Transmission Service Requests (TSRs) and related OASIS status changes are generally completed instantly and dynamically under E.ON's AFC Process as described in Attachment C to the LG&E/KU OATT. Short-term TSRs, however, are subject to SISs when: (1) they commence more than 18 months in the future and are, thus, outside of the AFC calculation horizons; (2) when commence inside of 18 months, but end more than 18 months in the future and, are

thus, outside of the AFC calculation horizons; or (3) AFCs are unavailable and the customer requests a SIS (typically this is for upgrade evaluation). Accordingly, for this metric, only those short-term TSRs studied as a result of the circumstances described in (1), (2), and (3) above are reported.

2 - Status changes to TSRs in OASIS occur nearly instantaneously and, therefore, this metric cannot appropriately be measured in days.

3 - As no TSRs for this type of service and customer were queued, this metric is not applicable.

4 - As no SISs for this type of service and customer were completed outside of the 60 day time period, this metric is not applicable.

5 - As no TSRs for this type of service and customer were queued, this metric is not applicable.

6 - As no TSRs for this type of service and customer were queued, this metric is not applicable.

7 - As no TSRs were withdrawn from the SIS queue for this type of service, this metric is not applicable.

8 - As no FSAs for this type of service and customer were delivered, this metric is not applicable.

9 - As no FSs for this type of service and customer were completed outside of the 60 day time period, this metric is not applicable.

10 - As no FSs for this type of service and customer were completed, this metric is not applicable.

11 - Costs are reflective of those amounts that have been billed to date; it is possible there are additional amounts that still need to be billed to specific studies.

12 - As no FSs for this type of service and customer were completed, this metric is not applicable.

13 - As no FSs for this type of service and customer were completed, this metric is not applicable.

14 - As no TSRs were withdrawn from the FS queue for this type of service, this metric is not applicable.
