August 8, 2008

BY OVERNIGHT MAIL

Nick Brown
President and Chief Executive Officer
Southwest Power Pool, Inc.

Dear Nick:

Pursuant to the letters of August 6, 2007 and November 8, 2007 from OG&E to Mr. Caspary, this letter is to confirm that OG&E, on behalf of the joint venture between OGE and ETA, commits to construct 765kV lines from Woodward to Guymon/Hitchland and Woodward to the Oklahoma – Kansas state line to interconnect with the Prairie Wind Transmission project.

This commitment to construct is contingent on allocation of the annual revenue requirement on a load-ratio share basis to transmission owners across the SPP footprint (postage stamp funding).

Sincerely,

A handwritten signature in black ink, appearing to read "Mel Perkins", is written over the word "Sincerely,".

Mel Perkins
Vice President Power Delivery
Oklahoma Gas & Electric Corp.
