**Agenda Item 4: 2013 SOC Update** – Everything is set for the next SOC in June in Springfield. At this time the SOC is full with no one on the waitlist. John Gunter will NOT be at this SOC. Dave Millam, Keeth Works and Denney Fales have offered to assist with the facilitation. John is still looking for individuals that would be willing to facilitate Generation and Transmission portions of the Fall SOCs.

**Agenda Item 5: DTS Update** – Katie Mauldin stated that the ERD scenarios are completed and will be tested prior to the ERD. New DTS base case at the end of this month should function the same.

**Agenda Item 6: 2013 Registration Update/Waitlist:** Jane Martin updated the rosters and waitlists – The next Level 2 Integrated Marketplace Clinic in Columbus, has no one on the waitlist Gen:45 LSE:51 and TO/TOP:56. For the Dallas clinic in June, 2 non-members on the waitlist with Gen:66, LSE 48 and TO/TOP:33 – Other classes and net conferences are mostly full with no or few on the waitlist. The SOCs are currently full with a few people remaining on the waitlists.

**Agenda Item 7: Integrated Marketplace Training** – Level 2 Integrated Marketplace Clinics are continuing. There are two remaining; one in Columbus in May and the final clinic in June in Dallas. Level 3 curriculum is being discussed and will be delivered in the Fall of 2013.
Overall comments regarding the Level 2 clinics are very positive. The one reoccurring comment pertains to not having SME support on site for the Transmission classes. The training department has had in person SME support for the three days but generally can only get support on the last day through phone calls and emails. This is primarily due to the few who have a clear understanding of the materials and the already full schedules.

**Agenda Item 8: Lessons Learned from Audits:** Nothing to update at this time

**Agenda Item 9: Other Items:** Leslie Sink wanted to know if we could cancel the scheduled June 3rd OTWG meeting because of the June 21st face-to-face meeting in Springfield. The unanimous vote was to cancel the 6/3 meeting.

Margaret Adams discussed with the group the IROL training scheduled to launch in June. She stated that she has received more clarity regarding PER005-R3. After reviewing the Q and A section provided by NERC and talking with the RE – training should include IROLs it does not have to be all current IROLs. Margaret posed the question to the OTWG: Do we need a separate class on IROLs when it is already included in the REOPs classes. The OTWG recommended that Margaret make the IROL classes more generic and use some of our older training so not to recreate the wheel. However the consensus is that the IROL classes would still be beneficial to those attending.

**Agenda Item 10: Action Item Summary:**
1. Misty Revenew will continue to set up the QTS/QTD training conference hosted at the KCP&L location
2. Jennifer Farley will email and post on SPP.ORG other Human Error Performance courses; she will continue to add additional information as it becomes available.
3. Doug Harrington is presenting a course for NPPD in June; Shannon Bolan will notify the OTWG if any open seats become available
4. Misty Revenew will provide additional information to Jennifer regarding the 4 day workshop provided by Bush Company

**Agenda Item 11: Future Meetings**
   June 20, 2013 Teleconference 1:00 – 5:00

**Agenda Item 12: Adjournment** – Misty Revenew made a motion for adjournment at 2:30 and Robert Hirchak seconded the motion.
