Re: *Southwest Power Pool, Inc. ("SPP") FERC-582 Report*

Dear Secretary Bose:

The Federal Energy Regulatory Commission's ("FERC" or "Commission") regulations at 18 C.F.R. § 382.201(c) require a "Public Utility" (as defined in 18 C.F.R. § 382.102(b)) to file, on or before April 30 of each year, the megawatt-hour transmission data to be used by the Commission to calculate the Public Utility's annual FERC assessment, designated as FERC Reporting Requirement No. 582 ("FERC-582 Report"). SPP hereby submits this FERC-582 Report and notifies the Commission that SPP provided 230,226,648 MWh of transmission service for the year 2012.

A complete copy of this filing will be posted on the SPP web site www.spp.org.

Please contact the undersigned with any questions.

Respectfully submitted,

Thomas P. Dunn
Vice President and Chief Financial Officer
