

## 2015 ITP Near-Term CBA Constraint Assessment Posted

As part of the 2015 ITP Near-Term Assessment, SPP completed a Constraint Assessment for each CBA Scenario. The assessment identifies constraints to include for each seasonal CBA SCED/SCUC dispatch in addition to the NERC Book of Flowgates. For more information about this CBA Scenario, see the [2015 ITPNT Scope](#) document.

**Please review the posted constraint assessment and provide any feedback by Monday, September 8, 2014.** SPP staff will also be conducting our own review during this time.

**The 2015 ITP Near-Term CBA Scenario Dates have also been [posted](#).**

Spreadsheets identifying additional constraints for each 2015 ITP Near-Term CBA Scenario have been posted to [TrueShare](#). For more information, refer to the “Helpful Links” section below.

*Files included in the posting:*

FILE	DESCRIPTION
2015L CBA - Additional Constraints.xlsx	2015 Light Peak CBA additional constraints
2015S CBA - Additional Constraints.xlsx	2015 Summer Peak CBA additional constraints
2016S CBA - Additional Constraints.xlsx	2016 Summer Peak CBA additional constraints
2020L CBA - Additional Constraints.xlsx	2020 Light Peak CBA additional constraints
2020S CBA - Additional Constraints.xlsx	2020 Summer Peak CBA additional constraints

As a reminder, instructions for accessing the model information can be found [here](#).

The Constraint Assessment files can be found under “Integrated Transmission Planning—Confidential and Protected Material and or Critical Energy Infrastructure Information-Do Not Release → 2015 ITPNT → 2015 CBA → Constraint Assessment.” This data is available to anyone with an executed non-Competitive SPP Non-Disclosure Agreement. Please treat this data as Confidential and Protected Material and Critical Energy Infrastructure Information.

All 2015 ITP Near-Term CBA Scenario model and/or Constraint Assessment feedback should be submitted through the [SPP Request Management System \(RMS\)](#), using the “**ITP – Modeling**” Quick Pick:

Submit Request

Quick Pick: ITP - Modeling

Request Status: Open

\* Request Type: Eng-Modeling

For more information, feel free to contact me or [SPP Customer Relations](#) if your questions are related to RMS.
