

2015 ITP10 Updated Models and Needs posted

On [October 29, 2014](#), a joint Transmission Working Group ([TWG](#)) and Economic Studies Working Group ([ESWG](#)) net conference was held. Pursuant to a recommendation approved at this joint meeting, SPP staff is providing the common needs discovered after follow-up analysis was performed due to a software issue which resulted in seasonal line rating adjustments not being correctly reflected in PROMOD simulations for SPP models. The common needs are those needs found to be “in common” with the original needs posting for the 2015 ITP10 and the follow-up needs list after a software fix was in place. These common needs, as well as the updated models, have been posted to [TrueShare](#). [The joint TWG/ESWG meeting materials have been updated to include the most current presentation.](#)

INFORMATION for obtaining the 2015 ITP10 updated models and needs list

In order to obtain access to these documents in TrueShare, stakeholders must provide SPP with a signed [confidentiality agreement](#). Instructions can be obtained by clicking on the link. Please submit these forms by email to questions@spp.org. After the executed confidentiality agreement is received, an account will be created for the requester on TrueShare. An email with instructions for logging on will be sent to requester. For those that already have a TrueShare account, no additional action is necessary.

These files can be found on TrueShare under “Integrated Transmission Planning – Confidential and Protected Material and or Critical Energy Infrastructure Information-Do Not Release → 2015 ITP10” in the “[2015 ITP10 Updated Models and Needs \(Nov 2014\)](#)” folder.
