REVISION HISTORY

VERSION NUMBER	AUTHOR	CHANGE DESCRIPTION	COMMENTS
1.0	Congestion Hedging Team	A supplement to the 2016 MP Guide, outlining the changes to the Annual ARR/TCR process; Team reviewed; Manager review by Charles Cates	4/28/2016

OVERVIEW

SPP has identified that the system model used for the 2016-2017 ARR allocation process included invalid data. This resulted in an inappropriate over allocation of ARRs and would create a difference between the ARR model / allocation and the TCR model / auction.

In compliance with the SPP tariff, SPP posted the corrected file yesterday on April 27.

To correct this issue, SPP is going to re-run the Annual ARR Allocation. As such, we will not be posting the results of the third round and will be removing the previously posted results of the first and second round. The results of the first and second round will be updated in accordance with the revised Annual ARR Allocation based on the updated system model.

A calendar that outlines the timeline of this revised Annual ARR Allocation is posting today on the SPP Marketplace Portal. Please refer to this calendar for a timeline of your required new actions and route any questions you may have through RMS.

Thank you for your cooperation in this matter.

This document outlines the new calendar for this and is intended for Southwest Power Pool (SPP) Market Participants (MPs) and provides information for participation in the Integrated Marketplace’s 2016 Congestion Hedging (also known as “TCR”) activities.

SUPPLEMENT TO THE 2016 SCHEDULE

The following changes have been made to the schedule for the 2016 Annual ARR/TCR process. These dates supercede those found in the 2016 Market Participant Guide 1.2.

May 2016						
Su	Mo	Tu	We	Th	Fr	Sa
1	2	3	4	5	6	7
