

2017 ITP10 Final Consolidated Portfolio and Staging Project List

The 2017 ITP10 final consolidated portfolios with project need dates and lead times have been posted to [TrueShare](#). Stakeholder feedback is to be received by November 4, 2016 via the SPP Request Management System ([SPP RMS](#)). SPP Staff is considering the portfolio consolidation and project staging milestones complete and is moving forward with final assessments. These items will be discussed in the upcoming Transmission Working Group/Economic Studies Working Group meetings on [November 15-17, 2016](#), as well as other ITP-related items.

SPP staff applied stakeholder approved methodologies for both consolidation and staging. Economic upgrades were given a need date for the first year that their B/C was greater than 1.0. As part of the 2017 ITP10 additional analysis, SPP staff will be investigating alternative need dates based on other factors as part of the recommending NTCs/NTC-Cs.

Information for obtaining the 2017 ITP10 portfolios project list IDEV files

In order to obtain access to these IDEVS in TrueShare, stakeholders must provide SPP with a signed [confidentiality agreement](#). Instructions can be obtained by clicking on the link. Please submit these forms via RMS through the “Request TrueShare Access” Quick Pick. After the executed confidentiality agreement is received, an account will be created for the requester on TrueShare. An email with instructions for logging on will be sent to requester. For those that already have a TrueShare account, no additional action is necessary.

These files can be found on TrueShare under “Integrated Transmission Planning – Confidential and Protected Material and or Critical Energy Infrastructure Information-Do Not Release → 2017 ITP10” in the “2017 ITP10 Project List” folder.
