RE: Withdrawal of Notification to Construct Approved Reliability Network Upgrade

Dear Mr. Cooley,

Southwest Power Pool, Inc. ("SPP") provides this withdrawal of a Notification to Construct ("NTC") to Southwestern Public Service Company ("SPS").

On July 13, 2018, SPP informed the Project Cost Working Group of the withdrawal, per SPP Business Practice 7060 Section 7.1. On July 31, 2018, the SPP Board of Directors approved the withdrawal of the Network Upgrade listed below.

Withdrawal of Upgrade

Previous NTC Number: 200407

Previous NTC Issue Date: 8/17/2016

Project ID: 31052

Project Name: Multi - Tolk-Yoakum Tap 230/115 kV Substation and Transformer

Network Upgrade ID: 51550

Network Upgrade Name: Tolk - Yoakum Tap 230/115 kV Substation and Transformer

Network Upgrade Description: Tap the intersection of the 230 kV line from Tolk to Yoakum and the 115 kV line from Cochran to Lehman Tap and terminate all four ends into new substation. Install new 230/115 kV transformer at new substation.

Reason for Change: SPP determined the Network Upgrade was no longer required in the 2018 ITPNT and that withdrawal causes no adverse impacts to existing agreements.

Withdrawal of Network Upgrade

SPS has been made aware of all Network Upgrades withdrawn through the expansion plan process. This letter is the formal notification to stop any further work on this Network Upgrade, collect any cost associated with the Network Upgrade, and provide this information to SPP.

All terms and conditions of the SPP OATT and the SPP Membership Agreement shall apply to

SPP-NTC-210502

this Project, and nothing in this NTC shall vary such terms and conditions.

Don't hesitate to contact me if you have questions or comments regarding these instructions.
Thank you for the important role that you play in maintaining the reliability of our electric grid.

Sincerely,

A handwritten signature in cursive script that reads 'Lanny Nickell'.
