## **Incremental Long-Term Congestion Rights (ILTCR)**

Candidates for ILTCRs must be requested during the study process for those entities that received Directly Assigned Upgrade Costs as described in Attachment Z1 of the Tariff. Upon receiving candidates, ad-hoc **Initial ILTCR Allocations** will be conducted (for only the involved parties) to award ILTCRs for the remainder of the TCR year. ILTCRs awarded in an Initial ILTCR Allocation must be nominated again in Round 2 of the following Annual LTCR Allocation. More information on ILTCRs and Initial ILTCR Allocations is available upon request.

## **Deadlines**

### **Credit Posting**

Financial Security needs to be received by the SPP Credit Department five (5) business days before the start of the corresponding TCR Auction Bid Window to allow time for processing and to apply funds to Market Participants respective accounts.

### **OASIS data**

Any transmission service that a Market Participant would like to be included as a candidate ARR/LTCR for the appropriate ARR/LTCR allocation must be in OASIS by the day prior to start of the corresponding verification period.

### **GFA data**

Any Grandfathered Agreements (GFAs) that have already been submitted will be maintained. Any additional GFAs a Market Participant would like to have included in an ARR/LTCR Allocation must be submitted at least two months before the start of the corresponding verification window so as to be approved when the verification window starts. Commercial model changes to accommodate the GFA must be implemented prior to the verification period. Reference Appendix E of the SPP Integrated Marketplace Protocols for commercial model registration deadlines.

### **Historic Peak Load**

Market Participants with Network Integrated Transmission Service (NITS) should validate their historic peak load for the year 2019. This should be reported to SPP, as outlined in the Communications section of this document, by January 15, 2020. SPP will use this information to verify network nomination caps and overall nomination caps.

Any new Asset Owner (AO) with NITS must provide their past three years historic peak load values prior to becoming an effective AO. This information should be reported to SPP, as outlined in the Communications section of this document.

### **Outages**

Transmission Owners that wish to have their outages included in a respective TCR market will need to have submitted or proposed the outage in CROW at least 10 business days before the **Allocation** model posting date. Proposed outages will only be used in the Congestion Hedging Market models.

Any outages submitted less than 10 business days before the model posting date may not be included in the appropriate TCR market(s). For any additional details on outages taken in the SPP congestion hedging process, see the [TCR Market Modeling Processes](#) document<sup>1</sup> posted on spp.org.

## **Market Timing Guidelines**

## **General Information and Inquiries**

SPP will distribute information and general announcements related to the TCR Market to MPs through an optional notification service called “SPP Auction Revenue Right / Transmission Congestion Right”. Those who opt-in to the “SPP Auction Revenue Right / Transmission Congestion Right” distribution list service can receive notices and announcements about the opening, closing and posting of data surrounding TCR Markets. To participate in the “SPP Auction Revenue Right / Transmission Congestion Right” distribution list service, please navigate to [SPP.ORG](http://SPP.ORG) and create an account. When you create an account, you will have the option to request to be added to the “SPP Auction Revenue Right / Transmission Congestion Right” distribution list.

When submitting an inquiry, the Request Management System (RMS) is the quickest way for inquiries and concerns to be addressed by the Congestion Hedging group. Use the Quick Pick *Transmission Congestion Rights (TCR) Inquiry*.

## **Issue Reporting**

Any immediate issues that are discovered should be reported to your Customer Relations Representative, via phone, email, or the [SPP Request Management System](#). SPP staff will investigate the reported issue and respond with a resolution. Use the Quick Pick *Transmission Congestion Rights (TCR) Inquiry*.

---

<sup>1</sup> [SPP.org > Markets & Operations > TCR Markets > TCR Reference Documents](#)

## **Public Posting to the Marketplace Portal**

SPP will post historical TCR market allocation and auction results on its [Marketplace Portal](#)<sup>2</sup>. SPP will post the following information for allocations: MW award with Source to Sink path and Time of Use, Binding Constraints. SPP will post the following information for auctions: MW award with Market Participant name, Source to Sink path, Time of Use and nodal price, Binding Constraints.
