

2021 ITP Needs Assessment – Additional Need Posting

SPP staff identified an additional need pertaining to the 2021 Integrated Transmission Planning assessment (ITP) needs assessment. This supplemental posting is to provide an additional Operational – Reliability need for consideration.

Please review the documents listed below for additional details.

ADDITIONAL DPP WINDOW

An additional Detailed Project Proposal (DPP) Response Window (“DPP Window”) will open at 12:00 a.m. CDT (midnight) **June 2, 2021**, and will remain open until **July 1, 2021** at 11:59 p.m. CDT. **DPP’s submitted during this window should only address the newly identified operational need.**

All DPP and non-DPP stakeholder submittals must be received by **11:59 p.m. CDT on July 1, 2021**, in order to meet assessment timelines. Non-DPP submittals may include, but are not limited to, operating guides, model corrections, and Order 890 solutions (such as submittal for company-specific local planning criteria). Any submittals received after that date are not guaranteed to be evaluated in the 2021 ITP Assessment.

As a reminder, the [DPP Submittal Form](#) is located on the Detailed Project Proposal page on SPP.org and is the preferred method for receiving **all** solution submittals, including non-DPP and Order 890 solutions.

Needs Assessment
