# SIR4 INITIATIVE SUBMISSION COMMERCIAL MODEL REGISTRATION PROTOCOL LANGUAGE CLEANUP\_SPP

- **Issue Description:**

- SPP Model Coordination wishes to update the “Integrated Marketplace Protocols Appendix E Network and Commercial Model Update Timing” table, categorizing the system update change type by coequal update durations and simplify some language of the protocols in section 6 - Market Registration.

- **Potential Benefit:**

- Market Participants will be able to better understand the timelines for market registration.

- **Potential System Impacts:**

- No expected system impacts.

- **Who is impacted:**

- Market Participants will gain efficiency from a consolidated Integrated Marketplace Protocols Appendix E Network and Commercial Model Update Timing table (section 6).

- **Potential System Impacts:**

- None

- **Potential MCE Performance Impact:**

- None

# SIR4 INITIATIVE SUBMISSION COMMERCIAL MODEL\_REGISTRATION PROTOCOL LANGUAGE CLEANUP\_SPP

- **Potential Complexity:**

- Design: NA
- Implementation: NA

- **Potential Risks:**

- None

- **Market Philosophy Impacts: Price Formation, Price Convergence, Market Efficiency, Market Transparency, Market Reliability**

- None

- **Example/Research/Analysis Information:**

- Review protocol language to determine necessary updates, draft language, facilitate through working group processes
