SIR377 0222 P2 DR10 DUAL PARTICIPATION & COMPENSATION, SPP

- **Purpose:**

- As Part of SPP's proposed FERC Order 2222 compliance SPP is requiring aggregators affirm that the DERs in the aggregation are not getting compensated twice for the same service. In light of this proposal SPP should also review the demand response design and ensure appropriate language is added to prohibit dual compensation for demand response.

- **Potential Benefit:**

- This will make it clear that demand response cannot receive dual compensation for the same service.

- **Alignment with existing SIR**

- SIR8 – FERC Order 2222 Compliance

SIR377 O222 P2 DR10 DUAL PARTICIPATION & COMPENSATION, SPP

- **Potential Impact/Cost**

- Potential System / Process Impacts
 - None
- Potential MCE Performance Impact: High, Medium, Low
 - None
- Potential Complexity: High, Medium, Low
 - Design: Low
 - Implementation: Low
- Potential Risk
