SIR210 WWE FA2

- **SPP MMU Comments**

- The MMU supports SIR210, echoing the need to advocate for improvements in the gas industry to assure gas supply is available during extreme events
- The MMU proposes specifically as part of this initiative, SPP should engage with regulators and the gas industry to acknowledge and address the problems caused by uncapped gas prices and capped electric prices to limit the harm this mismatch causes to ratepayers and electric reliability
- See SIR332 submitted by the MMU
