# SIR367 02222 P2 DE-REGISTRATION SPP

- **Purpose:**

- As part of the compliance proposal for FERC Order 2222 SPP is proposing language that describes how the Transmission Provider will stop accepting bids and offers for DER Aggregations in certain circumstances. This concept should carry over to all resources when certain circumstances arise or if they fail to meet the requirements of the Tariff and Protocols. This initiative will evaluate adding appropriate language to detail when the Transmission Provider will stop accepting bids and offers.

- **Potential Benefit:**

- This initiative will provide clarity for when SPP may stop accepting bids and offers from Resources under certain criteria.

- **Alignment with existing SIR**
